

*Delivering Value  
to You and Your  
Papermachine*

# GLENCO

The GLENCO team is trained and experienced in the optimization of papermachine systems and offer you the best, most cost-effective equipment and supplies – helping the papermaker to achieve his business and operational goals.

The GLENCO team can assist you with specification, installation and application of all GLENCO products.

GLENCO is always available, 24/7, 365 days a year.

Simply put, GLENCO is here to serve you – anytime, anywhere.

## CERAMICS, STRUCTURES & REPAIRS

- Innovative Products
- Repairs & Regrinds
- Wet-end Rebuilds
- Ceramic & Poly De-watering elements
- SS structures
- EVA-Electronic Vacuum Control Systems

*Superior know-how, state-of-the-art production facilities, highest quality materials and highly skilled specialists ensure that the IBS solution meets or exceeds your goals.*

## ON-MACHINE CLEANING TECHNOLOGIES

**James Ross Limited**

*JAMES ROSS, the leader in high-performance showering and doctoring systems, including specialized equipment for every application. Plus:*

- Linear Brush Showers
- Zone Cleaning Showers
- Felt Xtender
- Shower Oscillation
- Double Doctors
- Doctor Oscillation
- Creping Doctors
- Doctor Blades
- Control Technology
- Shower Nozzles

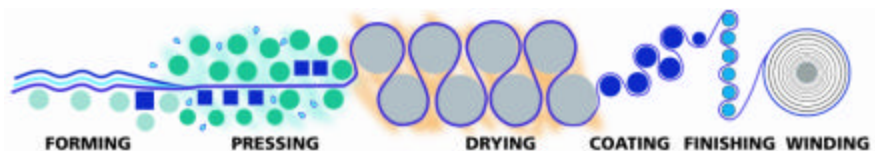

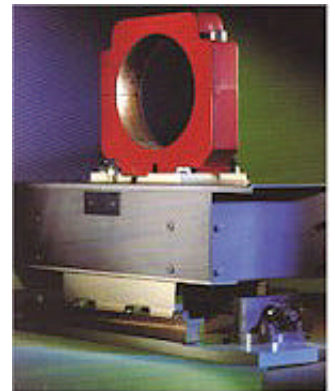

## TENSIONERS, GUIDES, TURN-UP SYSTEMS & TAPE

- Felt Tensioners
- Wire Tensioners
- Automatic Controls
- Tension Display Units
- Pneumatic Guides
- Pneumatic Sensors
- Electrical Guides

### TAPE TURN-UP SYSTEMS

**Manual, Semi-Auto and fully Automatic systems Repulpable paper tape and adhesive tapes.**

**PAPER CARRIER ROPES**

**THREADING SYSTEMS**

**ROLL SURFACES & FABRICATION**

**METERING RODS & HOLDERS**

**SPRAY & SHOWER NOZZLES**

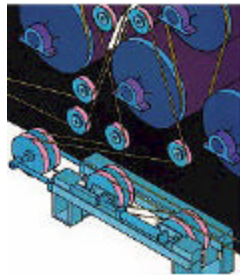

- Our goal – to reduce your total rope cost
- Longest lifetime in all machine conditions
- Excellent Threading
- Lowest stretch
- Excellent colour retention and abrasion resistance
- Easy Quick-splice
- Best paper- machine uptime performance

*WESPATT provides innovative tail threading solutions for the entire paper-machine, from the reel to the press.*

- Turnkey solutions
- Threading expertise
- Rope stretchers & sheaves
- Air foils & vacuum belts
- Machine accessories

*MP&P is a complete, single-source roll fabricating, plating, grinding and surface finishing company known worldwide for excellence and reliability.*

- Ground or polished roll finishes (to 0.5 Ra)
- Special matte finishes
- Hydrophilic applicator surfaces
- Mirror-pocket™
- Easy-release™
- Engineered finishes

*A world leader in the design and manufacturing of size press metering rods & holders.*

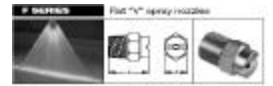

- Buschman has a complete line of metering rods and holders for all OEM machines such as Beloit, Valmet, Voith and Jagenberg. We also manufacture rods and holders for many other types of machines

- Detailed failure mode analysis
- Detailed end-of-life analysis
- Ability to work with any end journal or configuration requirement.
- Complete custom engineered metering rods, matched to your application

*Spray and Shower nozzles available for all your papermaking applications, including ruby fitted trim squirts & solid stream shower nozzles.*

**F-Series Flat** spray nozzles produce a flat, fan shaped spray pattern, with spray angles available from 5° to 110° measured at 40 psi. Spray angles generally increase with pressure. Spray density tapers off toward the outside of these sprays, to permit overlapping of spray patterns while maintaining uniform spray density.

**F-Series Solid Stream** has a high impact glass rod like stream. Also available with **Ruby orifice** for **trim squirt or fabric cleaning** and other applications that require maximum impact.

**papertech Digital Break Recording & Web Monitoring System**

*Papertech's advanced, fully digital technology offers paper makers the fastest and most complete way of solving the root cause of breaks. WebVision® Plus monitors breaks as they happen, giving paper makers a means to store, review, and analyze breaks resulting in break reductions of up to 80%. With the ability to continuously monitor all critical locations in real-time, breaks can be prevented before they happen.*

- Typically reduces unknown breaks by 50-75%
- Typically increases machine efficiency by 2-5%
- Typical payback is less than 6 months

**ROLL MEASUREMENT & GRINDING OPTIMIZATION EQUIPMENT**

**HEAD OFFICE**

*Serving Manitoba, Ontario, Quebec and the Maritimes*

20-2140 Winston Park Dr.  
Oakville, ON L6H 5V5

Tel: 1-877-645-3626 • Fax: 905-829-3719

**HP RubyNozzles™ Super Trim2003™**

**The leading Ruby Nozzle manufacturer. Your Complete Shower Solution ...**

Ruby nozzles are in use worldwide on paper machines as:

- Trim squirts (edge cutters)
- Travelling squirts (tail cutter)
- HP Shower nozzles.
